Declaration of Experience in use of Safety Boats at Gorleston

From time to time the club may need to hire in additional power boats to provide adequate or increased levels of safety cover. Other craft may be hired in at a preferential rate on the condition that they are only driven by competent and experienced power boat drivers.

In order to help us identify a pool of competent and experienced powerboat drivers the club requests that you declare your level of qualification/experience in line with the following definitions.
(Note: This does not commit the more experienced members to any additional duties, although they may be asked to swap duty dates, but only if the need arises.).

Please indicate your level of competence in driving power boats, specifically in outboard powered RIBs and other craft under 6m in length in line with the definitions below:

Experienced – Familiar with outboard engines, with launching & landing from a beach. Familiar with safety cover and rescue techniques for sailing dinghies. Familiar with local conditions at Gorleston. Does not need any guidance or instruction.

Certified – Holds current RYA powerboat certificate obtained within the last 5 years. (State which level)

Limited Experience – Have driven powerboats before but may not be familiar with outboard engines, launching/landing on a beach, and/or unfamiliar with safety cover and rescue techniques for sailing dinghies. Would like further instruction/guidance when carrying out race/safety duties.

Inexperienced – Needs instruction/guidance on launching landing and safety & rescue techniques

Please ring all the statements that apply to you and fill in the detail:
